

LonGeVa™ Bath

THE MINERAL ENVIRONMENT FOR NATURAL SKIN RENEWAL

INTRODUCTION //

YOUR SKIN IS A LIVING, INTELLIGENT SYSTEM

Your skin is not simply a covering. It is the body's largest protective interface - constantly responding to water, temperature, minerals, microorganisms and the surrounding environment.

When the skin barrier becomes dry, stressed or irritated, moisture escapes more rapidly. The surface may feel tight, rough or uncomfortable, while the normal renewal process can become less efficient.

BILLIONS OF CELLS CONTINUOUSLY COMMUNICATE, DEFEND, RENEW AND REPAIR.

LonGeVa™ Bath begins with one essential idea: before we ask the skin to look better, we must create better conditions around it.

THE LONGEVA™ PRINCIPLE

Do not fight the skin. Support its natural protective intelligence.

BETTER PREPARED FOR ITS NATURAL RENEWAL CYCLE

BARRIER FIRST

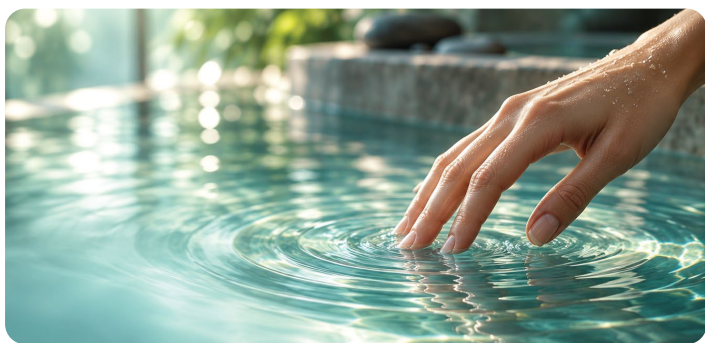

NATURAL RENEWAL BEGINS AT THE SKIN BARRIER

The outermost layer of the skin regulates moisture loss and helps defend the body against external stress. When this barrier is compromised, water escapes more easily - a process known as transepidermal water loss.

The skin may then appear dry, rough, tight, irritated or visibly stressed. More products on top of the skin do not always solve the underlying environmental problem.

LONGEVA™ BATH SURROUNDS THE BODY WITH MINERAL-CONDITIONED WATER DESIGNED TO SUPPORT:

- ◆ Skin hydration and softness
- ◆ Comfort during and after bathing
- ◆ The natural protective barrier
- ◆ Improved conditions for renewal

Barrier first. Because lasting skin comfort begins with the environment touching the skin.

A healthier barrier can retain moisture more effectively, provide better protection against external influences and create more favorable conditions for the skin's own maintenance processes.

MINERAL INTELLIGENCE

MORE THAN AN ORDINARY BATH

An ordinary bath cleanses the body. **LonGeVa™ Bath** creates a complete mineral bathing environment in which **water quality, mineral balance and whole-body skin contact work together.**

A SUPPORTIVE BATHING ENVIRONMENT

The objective is not to force the skin or temporarily disguise dryness. The objective is to create a supportive bathing environment in which the skin can move toward its natural balance.

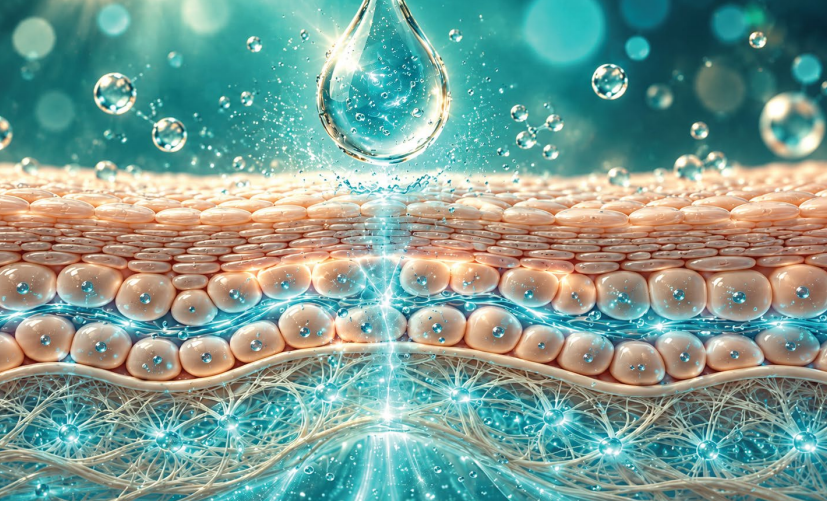

THIS MINERAL ENVIRONMENT IS DESIGNED TO HELP THE SKIN FEEL:

- ◆ More deeply hydrated
- ◆ Softer and smoother
- ◆ Calmer and more comfortable
- ◆ Less dry and tight
- ◆ Refreshed and visibly revitalized
- ◆ Better prepared for its natural renewal cycle

LonGeVa™ transforms bathing from a routine into a whole-body skincare ritual.

**Life Begins With Water.
Skin Longevity Begins With LonGeVa.**

CELLULAR COMMUNICATION //

THE INTELLIGENT LANGUAGE OF SKIN CELLS

Skin cells constantly exchange biological information. Part of this communication occurs through extracellular vesicles, including structures commonly called exosomes - tiny packages naturally released by living cells. They can carry proteins, lipids and genetic instructions to nearby cells, helping coordinate biological responses associated with protection, inflammation and tissue maintenance.

LONGEVA™ BATH DOES NOT CLAIM TO SUPPLY ARTIFICIAL EXOSOMES OR FORCE THE BODY TO PRODUCE THEM.

Its purpose is more fundamental: to support hydration, comfort and barrier conditions in which normal skin-cell communication and natural renewal can function properly.

THE RESPONSIBLE SCIENTIFIC CONNECTION

Support the skin's environment - and allow its own biology to do what it was designed to do.

RENEWAL CONDITIONS //

SUPPORTING NATURAL CELLULAR RENEWAL

- 1 MINERAL WATER:** The skin is surrounded by a carefully designed bathing environment.
- 2 HYDRATION:** The outer layers receive water and conditions that support comfort.
- 3 BARRIER SUPPORT:** A balanced surface can help reduce unnecessary moisture loss.
- 4 NATURAL RENEWAL:** Improved conditions support normal maintenance and renewal.

When the skin is no longer constantly struggling against an unsuitable external environment, it can dedicate more of its natural biological activity to maintenance, protection and renewal.

This is what **LonGeVa™** means by supporting natural cellular renewal: not changing the identity of cells, but creating improved external conditions for the skin's own renewal system.

WHOLE-BODY SKINCARE //

WATER BECOMES PART OF THE SKINCARE

Instead of treating water as an inactive carrier, **LonGeVa™ Bath** recognizes that bath water remains in direct contact with the entire skin surface. Its mineral composition, temperature, purity and overall balance can influence how the skin feels during and after bathing.

LonGeVa™ turns the bath into a complete whole-body skincare ritual - reaching areas that ordinary creams and serums may overlook.

**SKINCARE
BEGINS IN THE WATER**

MOST SKINCARE BEGINS AFTER BATHING. LONGEVA BEGINS WITH THE BATH WATER ITSELF

A NEW APPROACH TO SKIN LONGEVITY

Skin longevity is not about exaggerated promises of eternal youth. It means supporting the skin's ability to remain hydrated, comfortable, resilient and naturally renewed throughout life.

THE LONGEVA PROMISE //

BEGIN WITH THE WATER

A NEW PHILOSOPHY OF WHOLE-BODY SKINCARE

**DO NOT MERELY COVER
DRY-LOOKING SKIN.**

Improve the environment
surrounding it

**DO NOT FIGHT
THE SKIN**

Support its natural protective
intelligence.

**DO NOT BEGIN SKINCARE
AFTER THE BATH.**

Begin with the
water

LIFE BEGINS WITH WATER. SKIN LONGEVITY BEGINS WITH LONGEVA[™].

LonGeVa[™] Bath is not an exosome treatment and is not intended to diagnose, treat, cure or prevent any medical condition. It is a mineral bathing concept designed to support skin hydration, comfort, barrier function and the conditions required for natural renewal. Individual experiences may vary.

LonGeVa[™] Bath

- ◆ MINERAL HYDRATION
- ◆ SKIN-BARRIER SUPPORT
- ◆ WHOLE-BODY COMFORT
- ◆ NATURAL SKIN RENEWAL
